

AEROWASH

Aerowash Robotic Solution

AIRCRAFT WASHING MADE EASY

Technology at work for you

AEROWASH offers automated washing robots for all aircrafts worldwide.

The new generation Aerowash is ready to revolutionize the entire aircraft washing industry and set the new benchmark for washing efficiency. Thanks to innovative technology, it has become the most user friendly solution in the aircraft washing industry. The Aerowash operator will go from beginner to professional in no time.

Our new Aerowash is a Game Changer in terms of efficiency, easiness and safety. With the many automatic features and intuitive remote control, the Aerowash will help you save time and money.

“Our vision is to be the market leader of aircraft washing systems and services. We provide unique solutions and services that streamline and improve processes for our customers. It is with big satisfaction that we can see the impact that our robotic washing systems have had on our Customers’ washing time.”

*Niklas Adler
CEO*

BENEFITS

- Automatic folding and unfolding
- Four-wheel drive
- Diesel or battery powered

USER FRIENDLY

- Intuitive remote control
- Display for operation and monitoring
- Safety features
- Ergonomic design
- Wireless

CONSULTANCY

Our consultancy services focus on the aircraft washing concept. We can create new working practices, evaluate existing ones and enhance your processes into more efficient ones.

SERVICE & SUPPORT

The Aerowash Service Team will provide you with accurate and effective customer service and technical support. We offer remote and on-site support, as well as spare part management.

TRAINING

We offer on-site training services for your operators, maintenance personnel and supervisory team. Our instructors will train your staff on how to operate and maintain the Aerowash to achieve safe and efficient external cleaning.

COMPANY INFORMATION

We are an innovative Scandinavian high-tech company that strive to streamline the aircraft washing process. Our Aerowash can help to shorten the ground time while improving the washing result.

Our headquarter is located in Stockholm, Sweden. We offer automated washing solutions and services for the aviation industry globally, and have representatives in Europe, Middle East, Asia and North America.

We take pride in our product development, where we aim to offer our customers the very best in the business today and in the future. Our R&D department works closely with our customers as well as with our training and service team who has invaluable on-hand experience.
